

What's amazing to me is the fact that the decision to build a production car from the Waldorf Nomad was not made until January 1954 and the 1955 Chevrolet Nomad was debuted at the Waldorf Astoria in New York City at the 1955 GM Motorama. A photo of this vehicle is presented here for your review.

We hope you enjoyed this brief introduction to the Chevrolet nomad and will continue to the next section to read more about America's favorite wagon.
